The “FBI did not spy on the campaign” fix won’t work. I have the evidence. Halper was paid to spy and manufacture evidence against [@GenFlynn](#) from late 2015, from the moment Gen Flynn met Trump. [@ChuckGrassley](#) already identified the payments to Halper as “partisan political”. /1

COMMITTEE ON FINANCE  
 WASHINGTON, DC 20510-6200

January 16, 2019

Mr. Glenn A. Fine  
 Principal Deputy Inspector General  
 Department of Defense  
 4800 Mark Center Drive  
 Alexandria, VA 22350

Inspector General Fine,

I am writing to request: 1) A review of allegations that Department of Defense (DoD) Office of Net Assessment (ONA) contracts were used to support partisan political or other improper or wasteful activities; and 2) Progress reports on the whistleblower case of Mr. Adam Lovering, which grew out of the alleged misuse of ONA contracts.<sup>1</sup>

Late last year, a news report suggested that the ONA, which is an in-house think tank that normally conducts studies of U.S. vulnerabilities to emerging foreign military threats, had several contracts with a Cambridge University professor, Mr. Stephen Halper. Payments to the

**Svetlana Lokhova**

document I sent [@GenFlynn](#) in July 2016 was given to Harding of Guardian? (See his lawyers letter) Harding is under investigation by Grassley for receiving CIA leaks/4

ever, my client has no wish to becor roiled in a dispute with Ms Lokhova but the document that you have cribed. Accordingly, I am instructed t that, as things now stand, my clients have access to or possession of the ument that you have described. If th had access to or possession of the ument, as to which as I say no issions are made, they no longer ha ess to or possession of it (whether in or electronic copy).

We write today to highlight other information regarding the FBI's apparent awareness of leaks by other agencies or entities to the media. Specifically, in a December 2016 text message between Mr. Strzok and Ms. Page, Strzok told Page:

Think our sisters have begun ~~leaking like mad~~. Scorned and worried and political, they're kicking in to overdrive.<sup>[2]</sup>

Later, in April 2017, Strzok e-mailed FBI colleagues and once again discussed leaks by others to the press. Specifically, with regard to the publication of an article in [The Guardian](#) titled, "British spies were first to spot Trump team's links with Russia," Strzok said:

I'm beginning to think the agency got info a lot earlier than we thought and hasn't shared it completely with us. Might explain all these weird/seemingly incorrect leads all these media folks have. ~~Would also highlight agency as source of some of the leaks~~ <sup>[3]</sup>

These texts and emails raise a number of serious questions and concerns. For example, who are the "sisters" and what does it mean to say that the "sisters have ~~been~~ <sup>[2]</sup> leaking like mad"? What are they worried about, and what are they kicking into "overdrive"? Which "agency" is he referring to and why does Strzok believe the referenced news article highlights that "agency as [a] source of

In Dec 2015, Halper gets Pentagon to pay for his trip from US to England. Within weeks, Halper attempts to arrange a dinner with me in England (I don't attend). Halper arranges for other English academics to spy on me, tells them I am a Russian spy, having affair with Gen Flynn/3

Soon after, Halper re-entered the picture. In early 2016, as Flynn's role advising the Trump campaign became known, Lokhova said she received an invitation out of the blue to a private dinner party with Halper. Lokhova shared the email with Fox News.

"It was very, very unusual because Stefan Halper and I, despite being part of the same group, and meeting pretty much in a public forum, we've had no personal contact at all. [Halper] to me was an obnoxious academic who absolutely hated all Russians," she said.

Then in early 2017, as Flynn was fired, Lokhova said the allegations surfaced about suspicious contact with Flynn three years earlier. The former national

Svetlana Lokhova @... · 1/11/20

Halper was paid a MILLION DOLLARS by **Pentagon** to produce studies on China (see Grassley audit).

Even a student can take him apart for knowing nothing about China, **Halper** dissembles in seconds into a sweaty babbling mess (see video).

Through the BAA process, the ONA awarded four contracts to Professor Halper between May 30, 2012, and September 26, 2016. Specifically, the ONA awarded the following four contracts.

- HQ0034-16-P-0148, valued at \$411,575, on September 26, 2016. The contract consisted of two studies. The objective of the first study was to obtain the best possible analysis on how India will be affected by **China**'s slowing economy, how U.S. interests will be affected, and what steps can be taken to protect them. The objective of the second study was to determine how **China**'s economic slowdown may affect other South Asian nations, such as Sri Lanka, Myanmar, Bangladesh, Bhutan, Nepal, Malaysia, and Thailand.
- HQ0034-15-C-0100, valued at \$244,960, on September 24, 2015. The contract consisted of one study. The objective of the study was to obtain the best possible analysis on the prospect of Russian-**Chinese** collaboration against the United States and to determine the steps that can best protect U.S. interests.

1 FAR 35.016 authorizes the use of BAAs and establishes requirements for awarding contracts through a BAA solicitation.

2 The WHS Acquisition Directorate provides acquisition services to all Office of Secretary of Defense components.

2

- HQ0034-14-C-0076, valued at \$204,000, on July 29, 2014. The contract consisted of one study. The objective of the study was to examine nine topics related to **China** in the year 2030, to, among other issues, understand whether **China** is able to steadily increase funding for its military program in 2030 and beyond. Furthermore, the objective of the study was to examine how **China**'s changing demographic trends will affect its national priorities and its ability to recruit the high-tech force it needs to meet its modernization goals.

- HQ0034-12-C-0039, valued at \$197,626, on May 30, 2012. The contract consisted of one study. The objective of the study was to examine three topics related to **China** and the Three Warfares,<sup>3</sup> to, among other issues, identify the U.S. Military Commands that will be most heavily impacted by **China**'s use of the Three Warfares and describe how the warfares may limit or disrupt the ability of the Command to project power. Furthermore, the study was to examine how **China**'s use of the Three Warfares limits U.S. options in pre-war situations, including possible U.S. countermeasures.
